

## Guns on Campus

In state legislatures throughout the U.S. as well as here in Michigan, attempts have been made by state lawmakers to strip institutional leaders and public university governing boards of their authority to regulate weapons on campus. Public university campuses are among the safest environments in American society, in part due to the absence of guns. Nearly every higher education and law enforcement stakeholder group has steadfastly opposed legislation that allows individuals to carry guns on campus.

### Policy Action:

- Oppose state legislation that seeks to diminish or eliminate institutional authority to regulate guns on campus.
